BestView3D - Videos
FIFA World Cup 2010

BestView3D - Videos

Where can you find the World Cup winner Italy, the footballing home of England, the graceful ball players from Argentina and Brazil, and the rising football nations of China and the USA, plus 24 other nations, all in one place? Right here!

Make sure you're close to the action when Messi dribbles, Kaka conjures his magic and Beckham fires in those legendary free kicks at the first FIFA World Cup™ on the African continent: From 11 June, you can witness it all – all the stars and all the crucial goals.

BestView3D - Videos in action

With our 3D video offer, you'll receive the make or break match situations and every goal animated in 3D. And it's always up-to-date. You get the package two hours after the end of every match.

On every match day, you will receive the goals or crucial moments from each respective match rendered in 3D. Each passage of play is captured from three camera angles at 10-15 second intervals (total video length is 30-45 seconds).

Our 3D clips also come prepared with analysis tools created by the experienced football experts in our editorial team, which makes it even simpler for you to deliver top quality online content.

You receive the finished 3D clips via a download platform. That way, you have the option of including a voiceover commentary to our prepared 3D clips if desired.

Advantages at a glance

- Perfect reproductions of the hottest actions in top quality 3D clips
- High-End visual Engine leads to most realistic 3D animations on the market
- Ability to create realistic reports on Champions League matches without TV images
- Right free 3D Video clips
- Videoclips including various view-points such as bird view, player view, ball view and more.
- Prepared by expert editors with top quality analysis tools
- Perfect value added content for advertisers
- Available to both web, mobile & broadcast clients (HD available)
